

Three Wire Covert Shroud

The ParMarLow RS-PW0300 Three Wire Shroud is the workhorse of surveillance and personnel protection operations. With the Mini-Mike lapel microphone, the pendant-style PTT switch, and your choice of earpiece, this unit allows for discrete communications while in public situations.

Overmolded strain relief provides superior reliability of all components. The overmolded PTT switch is easier to handle than the hard plastic housings used by other manufacturers. The same overmolded material

is used on the Mini-Mike to provide strain relief of the wire interconnect. The Mini-Mike comes complete with clothing clip. The RS-PW0300 is available in either black or beige.

Earpiece Options

The RS-PW0300 is available with your choice of earpiece:

ES-EST (pictured above)

ES-MUR, ES-BUD, ES-ANR, ES-MLD
